

# CDM AS A SERVICE CONTINUOUS MONITORING SERVICES IN THE CLOUD

As OMB CDM mandates quickly approach, Federal agencies are looking to implement innovative and cost-effective Continuous Monitoring, Remediation and Reporting Solutions that work to reign in all of the endpoints and components within their enterprises.

## EXPECT MORE FROM YOUR CDM SOLUTION.

Chief Technologies is a leader in delivering “Continuous Diagnostics And Mitigation as a Service”. We provide a FISMA Secure Private Cloud Hosted CDM solution that provides Federal agencies with the ability to monitor all of their endpoints for compliance, and then provide those metrics directly up to CyberScope.

## Chief CDM as a Service Features Include:

- Software Asset Configuration Management
- Hardware Asset Configuration Management
- Vulnerability Management
- Holistic Approach with Remediation
- SCAP Capabilities
- MOM Dashboard Architecture
- A Risk Management Framework (RMF)
- Information Security Continuous Monitoring (ISCM)
- Optional Network Access Control (NAC)
- Optional Configuration Management Database (CMDB)
- Optional “NOSC Tools as a Service” extension
