

STORAGE AS A SERVICE MOVE YOUR LONGTERM STORAGE TO THE CLOUD

As Federal budgets and resources tighten enterprise IT departments are looking to offload expensive and space wasting storage appliances, and instead, keep long term data and backups in an offsite, secure and highly available environment.

EXPECT MORE FROM YOUR STORAGE SOLUTION.

Chief Technologies is a leader in delivering “Storage and Backup as a Service”. We provide a FISMA Secure Private, Cloud Hosted Storage solution that allows Federal agencies to easily and quickly transform their costly traditional storage models into an OPEX Cloud Based Storage and Recovery Service.

Chief Cloud Storage Features Include:

- Object, Block, and File Storage
- All Data Transactions Protected by Industry Leading Mechanisms
- Fast Return on Investment (ROI)
- Meets Federal Security Standards
- High Availability and High Performance
- Utility Based OPEX Consumption Model
- Desktop and Web Clients make Accessing Data Easy
- Standards Based Web API
- SLA and Performance Reporting Capabilities
- Distributed File Systems with Redundant Copies of Data
- Reduced Data Exposure
- Integrates with Popular Storage Models like Amazon S3
- Dedicated and Multi-Tenant Plans Available
- No Forklift Upgrades Required
- Highly Cost-Effective Model versus Traditional On-Prem Storage

Why Chief Storage

FISMA Capable Hosting
No Forklift Upgrades Required
Unlimited Scalability
FIPS 140-2 Compliant
Pay Only For What You Use
Reduced Data Sprawl
Access Your Data From Anywhere
Redundant Distribution Model
