

UNIFIED COMMUNICATIONS AS A SERVICE MOVE YOUR COMMUNICATIONS TO THE CLOUD

Budgets and resources are tightening. Enterprise IT departments need more cost-effective ways of deploying and managing their disparate phone systems.

EXPECT MORE FROM YOUR COMMUNICATIONS SOLUTION.

Chief Technologies is a leader in IP Voice and Video Technology. We provide a private, cloud-based “Unified Communications as a Service” solution that not only meets the critical performance requirements of the enterprise, but also enables advanced features and distributed deployments that traditional premises-based systems cannot address in a cost effective manner.

Chief Unified Communications Features Include:

- Voice, Video and Collaboration
- Based on Open and Standards Based Protocols
- Fast Return on Investment (ROI)
- Meets Federal Security Standards
- High Availability and High Performance
- Utility Based OPEX Consumption Model
- Thick, Thin and Web Client Support
- Full Integration Support with Existing Collaboration Tools
- SLA and Performance Reporting Capabilities
- Traditional PBX Transition Services offered
- Requires Minimal Training
- No Forklift Upgrades Required
- Many Unique Mobility Features and Options

Why Chief Cloud?

FISMA Capable Hosting
No Forklift Upgrades Required
Massive Scalability
VDI Integration Capability
